***NEW!* 2029 Low Profile 10W or 20W LED**

MINI WALL PACK, DOWNLIGHT AND LED

The Mini Wall Pack is a perfect fixture for canopies, hallways, doorways, walkway overheads and stairwells. Time proven design keeps the bugs and dirt out to eliminate periodic cleaning. Vandal-resistant polycarbonate construction provides durability and long life, and can be furnished with tamper-proof screws to protect the light sources. Adding the optional LED light sources makes this the most energy-efficient fixture on the market in its price range and has been used by condominiums, dormitories, schools, homes, and boat dock owners for a number of years for cost-effective small area lighting. Numerals can be added quickly and easily to the lens for an address lighting fixture. Minimal current consumption equals huge savings over conventionally illuminated fixtures and makes for an impressive, low life-cycle cost. Dusk to dawn operation for less than \$20.00 for a 10 watt and \$25.00 for a 20 watt annually!

COMPONENTS & SPECIFICATIONS:

Dimensions:	<i>NEW – Low Profile</i> 5 7/7" W X 11 3/8" L X 2 1/8" D 5" X 11" X 3 1/2" deep	
Construction:	Marine Polymer – Black or White, Clear prismatic Lens, Stainless Steel lens screws, Neoprene Closed Cell Gasket. Offered in LED ONLY. Polycarbonate Housing (Black, White, Clear) and Clear Polycarbonate Prismatic Lens.
